Mr. POWELL of Colonel WYSKOOPS CAValry had a narrow escape the other day. He had been detailed with a few others on secret service near Lebanon, and was captured near that place. He was condemned to be hung, but being exceedingly vigilent gave his captors the slip, and is now safe.

THE UNION IN LOUISVILLE -- Our friends in Louisville can get the Union regularly from our agent, Mr. A. GUNTER, at his depot on Third Street, between Market and Jofferson. Our friends there desiring stationery or anything in his line, cannot do better than to give him a call.

SHINOPIULD, July 12 .- Governor Vates has addressed the following urgent letter to the President of the United States: EXECUTIVE DEPARTMENT, / SPRINGPIRED, July 114

President Lincoln, Washington, D. C.:

The crisis of the war and of our national existence is upon us. The time has come for the adoption of more decisive by the Senate of the United States, to and at Liberty, on Thursday, the 17th ness must be infused into our military be Judge of the U.S. District Court for instant. vital parts of the rebellion.

The Government should employ all available means compatible with the rules of warfare to subjugate the traitors. Summon to the standard of the Republic all men willing to light for the Union. Let loyalty, and that alone, he the dividing lines between the nation and its foes. Generals should not be permitted to fritter away the services of our brave men in guarding the property of traitors, and in driving back into their hands loyal blacks who offer us their labor and who seek shelter beath the Federal flag.

Shall we sit supinely by and see the war sweep off the youth and strength of the land, and refuse aid from that class of men who are at least worthy fees of traitors and the murderers of our government and of our children ?

Our armies should be directed to forage and quarter on the enemy, and to cease paying traitors and their abettors exor-bitant exactions for food needed by the sick or hungry soldier.

Mild and conciliating means have been tried in vain to recall the rebels to their allegiance. The conservative policy has utterly failed to reduce them to obediconscriptions, gathered in countless hordes, and threaten to beat back and overwhelm the armies of the Union. Mr. Lincoln, the crisis demands greater efforts and sterner measures. Proclaim anew the good old motto of the Re public, "Liberty and Union, now and forever, one and inseparable," and accept the services of all loyal men, and it will be in your power to stamp armies out of the earth—irresistible armies, that will bear our banners to certain victory.

Illinois, already alive with the beat of the drum, and resounding with the tread of new recruits will respond to their call. Adopt this policy, and she will lesp like a flaming giant into the fight. This policy for the conduct of the war will render foreign intevention impossible and the arms of the Republic invincible. It will bring the conflict to a speedy close, and secure peace on a permanent basis. RICHARD YATES, Governor of Illinois.

Paragraphs like the following from the Louisville Journal show why it is that our armies in the field are deficient in numbers :

We are assured that there are from four to six thousand convalescent soldiers in the immediate neighborhood of this city and many of them impatient to return to their respective regiments. it is, from any cause, impracticable to comply with their wishes, we do not understand why they cannot be temporarily organized into companies, battalions, and regiments, armed and placed under efficient officers for drill, and it necessary for active service. There are idle shoul der-straps to be seen on our streets, the wearers of which would find fitting employment in the supervision of these convalescents. Inaction is the very wors thing for a soldier, as it leads to demoralisation. There should be immediate very low to-day, from his sufferings un-der throat affection. His physicians say that he cannot long survive. He is in-sensible, and unable to recognize friends for home service.

MEMPHS, July 17.—The Grenada Ap-peal of the 13th bas a Mobile dispatch of the same date which says a special to the Advertiser states that the Richmond Enquirer says it is no longer doubtful that our lines have been brought closer to Richmond, but a large force has been left immediately in front of the enemy as an

army of observation. General Stuart, on last Wednesday, with a few pieces of artitlery, again made for General McClellan's position. He reached James river below him, and opened fire on a large fleet of transports, sinking one and disabling several.

The Virginia correspondent of the N. York Times tells of an instance wherein the devil was caught in his own trap; a rare occurrence, since the old gentleman

has quick ears and sharp eyes. A Rebel Trick Frastrated.

Major Clendenin, with a command from the 8th Illinois Cavalry, were on a recon-noissance yesterday. He made a disposition of his men along the road, and soon came in sight of the enemy. A flag of truce was soon discovered coming from the side of the enemy. After their introduction to the Major, it soon became apparent that their visit was a mere blind. About this time a contraband came in and stated that the Union forces were in range of three field pieces that the Rebels had just placed in position under this flag of truce, and as soon as the flag of truce party left, and were out of danger, they intended to open upon our gallant fellows. The Major at once made an examination, and found this story to be true. He at once informed his treacherous enemy at the sound of the first gun he would cut their throats. He at once withdraw his force out of range, the enemy not daring to fire on account of their friends.

THE SECRETARY OF WAR .- The Washington correspondent of the Philadelphia Inquirer says it is very evident that the President does not entertain for a moment the idea of any change in the Cabinet.
